day, board on my face in the day

Handwritten text on a separate sheet of paper, likely a letter or document, written in cursive script. The text is partially obscured by the binding of the book and is difficult to read. It appears to be a personal communication, possibly a letter to a friend or family member, discussing various topics including health, travel, and personal affairs. The handwriting is elegant and characteristic of the 18th or 19th century.
